#### About the Organization

With more than 1,80,000 people in over 40 countries, Capgemini is a global leader in consulting, technology and outsourcing services. Together with its clients, Capgemini creates and delivers business, technology and digital solutions that fit their needs, enabling them to achieve innovation and competitiveness. A deeply multicultural organization, Capgemini has developed its own way of working, the Collaborative Business Experience™, and draws on Rightshore®, its worldwide delivery model. Capgemini offers an array of integrated services that combine top-of-the-range technology with deep sector expertise and a strong command of its four key businesses:

- \* Consulting Services (Capgemini Consulting) help businesses and organizations to identify, build and carry through transformation programs that will improve growth and sharpen their competitive edge on a long-term basis.

- \* Technology Services design, develop and implement a wide range of technology projects that involve complex systems integration and IT application development.

- \* Outsourcing Services manage, wholly or partially, over several years, IT systems for applications and infrastructures of a client (or a group of clients), and their associated business processes such as Business Process Outsourcing.

- \* Local Professional Services (Sogeti) delivers professional technology services to suit local requirements for infrastructure, applications, engineering, testing and operations.
